## EXPLANATORY NOTE

*(This note is not part of the Instrument and does not purport to be a legal interpretation.)*

These Regulations amend the Building Control Regulations (the “Principal Regulations”) following a review of the operation of the procedures introduced under S.I. No. 9 of 2014 during its first 12 months in operation.

Article 5 of the Principal Regulations is amended to provide clarification that an owner intending to build a dwelling for their own use may take on the role of builder for building control purposes and sign the statutory forms which must be signed by the builder.

Definitions for the term “company” and — in the context of domestic extensions — for the term “total floor area” have also been included.

Article 6 of the Principal Regulations is amended to remove the general exemption from building control regulations for works undertaken by a local authority within its own functional area.

Article 9 and Article 20F of the Principal Regulations are revised to give the owner of works involving the construction of a new single dwelling, on a single unit development, or of a domestic extension, the facility to opt out of the requirement to obtain statutory certificates of compliance signed by a registered construction professional. A homeowner who wishes to avail of this facility must, when submitting the commencement notice, sign and submit the new form of “Declaration of Intention to Opt Out of Statutory Certification” now included in the Second Schedule to the Principal Regulations. The homeowner in such circumstances is no longer required to provide the following compliance documentation specified under Article 9 of the Principal Regulations:

- the preliminary Inspection Plan prepared by the Assigned Certifier [Art. 9(1)(b)(i)(IV) refers];
- a Certificate of Compliance (Design) [Art. 9(1)(b)(ii)(I) refers];
- a Notice of Assignment of Person to Inspect and Certify Works (Assigned Certifier) [Art. 9(1)(b)(ii)(II) refers];
- a Certificate of Compliance (Undertaking by Assigned Certifier) [Art. 9(1)(b)(ii)(III) refers];
- a Certificate of Compliance (Undertaking by Builder) [Art. 9(1)(b)(ii)(V) refers];
- a Certificate of Compliance on Completion, and accompanying documents.

For the avoidance of doubt, a homeowner who opts out of the statutory certification process as outlined above is required, prior to the commencement of works, to submit a commencement notice accompanied by:

- a Declaration of Intention to Opt Out of Statutory Certification,
- such plans, calculations, specifications and particulars as are necessary to outline how the proposed dwelling or domestic extension will comply with the relevant requirements of the Second Schedule to the Building Regulations; This will typically include, but not be confined to, general arrangement drawings; a schedule of compliance documents, as designed or to be prepared at a later date; the online BCMS assessment of the proposed approach to compliance (Art. 9(1)(b)(i) of the Principal Regulations refers),
- a Notice of Assignment of Builder (Art. 9(1)(b)(ii)(IV) of the Principal Regulations refers),
- a fee of €30 (Part V of the Principal Regulations refers).

The effect of the above changes to Articles 9 and 20F is that the statutory forms of certification signed by builders and registered construction professionals are no longer mandatory in the case of a new single dwelling, on a single unit development, or a domestic extension.

Finally, Article 21 of the Principal Regulations has been amended to provide for reference to be made on the public register where a homeowner has declared their intention to opt out of statutory certification.
